## ABSTRACT

Aziz, Eron Abdul. 2018. *The Analysis of English Deixis in Kungfu Panda 3 Movie*. Skripsi. English Education Department, Teacher Training and Education Faculty, Muria Kudus University. Advisor: (i) Nuraeningsih, S.Pd, M.Pd (ii) Atik Rokhayani, S.Pd, M.Pd.

Key words: *Deixis, Kungfu Panda 3 Movie*

Deixis is a part of pragmatics study. Levinson (1983: 9) states that pragmatics is study of those relations between language and context that are grammaticalized, or encoded in the structure of a language. Pragmatics is the study of language usage. Such a scope for pragmatics would include the study of deixis, presupposition, implicature, entailment, and speech acts. Deixis is a word or phrase which directly relates an utterance to a person, time, place, social and discourse. There are five kinds of deixis proposed by Levinson, they are: Personal deixis, Place deixis, Time deixis, Discourse deixis, and Social deixis.

This research aims to find out the deixis in Kungfu Panda 3 Movie and the use of deixis. This also to show the function of deixis used in Kungfu Panda 3 Movie.

This is a qualitative research. The analysis is described clearly in form of table. The data of the research is the deixis found in Kungfu Panda 3 Movie. The data source of this research is Kungfu Panda 3 Movie.

The result of the reseach shows there are five types of deixis. They are Person Deixis with 1.097 followed by Social Deixis with 110 continued by Discourse Deixis with 52 and Place Deixis with 36 and Time Deixis with 35. The deixis found in Kungfu Panda 3 Movie are used to refer the person or thing, indicate the social level of the character, give the information of the time, place, and refer the additional information.

Thus, it can be concluded that there are five types of deixis. They are Person Deixis, Social Deixis, Discourse Deixis, Place Deixis and Time Deixis. The writer hopes that the students of English Education Depatment can learn more about the conversational deixis order to know about what is the theory and how is the implementation in the real conversation.
